**CDMG Geriatrics Caregiver Assessment Packet**

Life is busy and stressful, and the last thing you may need is another packet of papers to complete. However, this information is very helpful to understand the current state of the disease process, learn how the caregiver is coping and assist with planning for the future.

This packet was developed by a group of national geriatric experts. Medicare recommends that this assessment be completed every 6 months to update the care plan and for comparison as the situation changes over time.

***PLEASE COMPLETE AND RETURN TO THE OFFICE BEFORE THE NEXT VISIT***

Patient Name: __________________________________________________

Patient Date of Birth: _____________________________________________

Completed by: __________________________________________________

Date Completed: ________________________________________________

Next Appointment: ______________________________________________

Return in the mail by: ____________________________________________

- Please try not to “over think” your answers. Choose the answer that most matches the current situation.
- You will be asked to complete these forms more than once. Comparing your answers over time is very helpful to aid in understanding the stage of the disease and helps to ensure that your planning is in place.
- It may be helpful to have other family members or caregivers give their input to get a well-rounded picture of the current state.

Thank you for taking the time to complete this caregiver assessment packet. Your input as caregiver is valuable to us.
### Katz Index of Independence in Activities of Daily Living

### Instrumental Activities of Daily Living Scale (I.A.D.L.)

#### Scoring:
For each category, circle the item description that most closely resembles the client’s highest functional level (either 0 or 1).

<table>
<thead>
<tr>
<th>Category</th>
<th>Item Descriptions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>A. Ability to Use Telephone</strong></td>
<td>1. Operates telephone on own initiative - looks up and dials numbers, etc.</td>
</tr>
<tr>
<td></td>
<td>2. Dials a few well-known numbers</td>
</tr>
<tr>
<td></td>
<td>3. Answers telephone but does not dial</td>
</tr>
<tr>
<td></td>
<td>4. Does not use telephone at all</td>
</tr>
<tr>
<td><strong>E. Laundry</strong></td>
<td>1. Does personal laundry completely</td>
</tr>
<tr>
<td></td>
<td>2. Launders small items - rinses stockings, etc.</td>
</tr>
<tr>
<td></td>
<td>3. All laundry must be done by others</td>
</tr>
<tr>
<td><strong>B. Shopping</strong></td>
<td>1. Takes care of all shopping needs independently</td>
</tr>
<tr>
<td></td>
<td>2. Shops independently for small purchases</td>
</tr>
<tr>
<td></td>
<td>3. Needs to be accompanied on any shopping trip</td>
</tr>
<tr>
<td></td>
<td>4. Completely unable to shop</td>
</tr>
<tr>
<td><strong>F. Mode of Transportation</strong></td>
<td>1. Travels independently on public transportation or drives own car</td>
</tr>
<tr>
<td></td>
<td>2. Arranges own travel via taxi, but does not otherwise use public transportation</td>
</tr>
<tr>
<td></td>
<td>3. Travels on public transportation when accompanied by another</td>
</tr>
<tr>
<td></td>
<td>4. Travel limited to taxi or automobile with assistance of another</td>
</tr>
<tr>
<td></td>
<td>5. Does not travel at all</td>
</tr>
<tr>
<td><strong>C. Food Preparation</strong></td>
<td>1. Plans, prepares and serves adequate meals independently</td>
</tr>
<tr>
<td></td>
<td>2. Prepares adequate meals if supplied with ingredients</td>
</tr>
<tr>
<td></td>
<td>3. Heats, serves and prepares meals, or prepares meals but does not maintain adequate diet</td>
</tr>
<tr>
<td></td>
<td>4. Needs to have meals prepared and served</td>
</tr>
<tr>
<td><strong>G. Responsibility for Own Medications</strong></td>
<td>1. Is responsible for taking medication in correct dosages at correct time</td>
</tr>
<tr>
<td></td>
<td>2. Takes responsibility if medication is prepared in advance in separate dosage</td>
</tr>
<tr>
<td></td>
<td>3. Is not capable of dispensing own medication</td>
</tr>
<tr>
<td><strong>D. Housekeeping</strong></td>
<td>1. Maintains house alone or with occasional assistance (e.g. &quot;heavy work domestic help&quot;)</td>
</tr>
<tr>
<td></td>
<td>2. Performs light daily tasks such as dish washing, bed making</td>
</tr>
<tr>
<td></td>
<td>3. Performs light daily tasks but cannot maintain acceptable level of cleanliness</td>
</tr>
<tr>
<td></td>
<td>4. Needs help with all home maintenance tasks</td>
</tr>
<tr>
<td></td>
<td>5. Does not participate in any housekeeping tasks</td>
</tr>
<tr>
<td><strong>H. Ability to Handle Finances</strong></td>
<td>1. Manages financial matters independently (budgets, writes checks, pays rent, bills, goes to bank), collects and keeps track of income</td>
</tr>
<tr>
<td></td>
<td>2. Manages day-to-day purchases, but needs help with banking, major purchases, etc.</td>
</tr>
<tr>
<td></td>
<td>3. Incapable of handling money</td>
</tr>
</tbody>
</table>

#### Score:

A summary score ranges from 0 (low function, dependent) to 8 (high function, independent) for women and 0 through 5 for men to avoid potential gender bias.

PARTICIPANT’S NAME:_________________________ DATE:_________________
PERSON COMPLETING FORM:__________________________________________

Please circle the most appropriate answer.

Do you live with the participant?  No  Yes

How much contact do you have with the participant?  Less than 1 day per week  1 day/week

2 days/week  3-4 days/week  5 or more days per week

Relationship to participant
Self  Spouse  Sibling  Child  Family  Friend  Other __________________________

In each section, please circle the number that most closely applies to the participant. This is a general form, so no one description may be exactly right -- please circle the answer that seems to apply most of the time.

Please circle only one number per section, and be sure to answer all questions.

MEMORY

0  Normal memory.

1  Occasionally forgets things that they were told recently. Does not cause many problems.

2  Mild consistent forgetfulness. Remembers recent events but often forgets parts.

3  Moderate memory loss. Worse for recent events. May not remember something you just told them. Causes problems with everyday activities.

4  Substantial memory loss. Quickly forgets recent or newly-learned things. Can only remember things that they have known for a long time.

5  Does not remember basic facts like the day of the week, when last meal was eaten or what the next meal will be.

6  Does not remember even the most basic things.
DEMENTIA SEVERITY RATING SCALE (DSRS)

SPEECH AND LANGUAGE

0  Normal ability to talk and to understand others.
1  Sometimes cannot find a word, but able to carry on conversations.
2  Often forgets words. May use the wrong word in its place. Some trouble expressing thoughts and giving answers.
3  Usually answers questions using sentences but rarely starts a conversation.
4  Answers questions, but responses are often hard to understand or don’t make sense. Usually able to follow simple instructions.
5  Speech often does not make sense. Can not answer questions or follow instructions.
6  Does not respond most of the time.

RECOGNITION OF FAMILY MEMBERS

0  Normal - recognizes people and generally knows who they are.
1  Usually recognizes grandchildren, cousins or relatives who are not seen frequently but may not recall how they are related.
2  Usually does not recognize family members who are not seen frequently. Is often confused about how family members such as grandchildren, nieces, or nephews are related to them.
3  Sometimes does not recognize close family members or others who they see frequently. May not recognize their children, brothers, or sisters who are not seen on a regular basis.
4  Frequently does not recognize spouse or caregiver.
5  No recognition or awareness of the presence of others.

ORIENTATION TO TIME

0  Normal awareness of time of day and day of week.
1  Some confusion about what time it is or what day of the week, but not severe enough to interfere with everyday activities.
2  Frequently confused about time of day.
3  Almost always confused about the time of day.
4  Seems completely unaware of time.

ORIENTATION TO PLACE

0  Normal awareness of where they are even in new places.
1  Sometimes disoriented in new places.
2  Frequently disoriented in new places.
3  Usually disoriented, even in familiar places. May forget that they are already at home.
4  Almost always confused about place.
DEMENTIA SEVERITY RATING SCALE (DSRS)

ABILITY TO MAKE DECISIONS
0  Normal - as able to make decisions as before.
1  Only some difficulty making decisions that arise in day-to-day life.
2  Moderate difficulty. Gets confused when things get complicated or plans change.
3  Rarely makes any important decisions. Gets confused easily.
4  Not able to understand what is happening most of the time.

SOCIAL AND COMMUNITY ACTIVITY
0  Normal - acts the same with people as before
1  Only mild problems that are not really important, but clearly acts differently from previous years.
2  Can still take part in community activities without help. May appear normal to people who don't know them.
3  Often has trouble dealing with people outside the home without help from caregiver. Usually can participate in quiet home activities with friends. The problem is clear to anyone who sees them.
4  No longer takes part in any real way in activities at home involving other people. Can only deal with the primary caregiver.
5  Little or no response even to primary caregiver.

HOME ACTIVITIES AND RESPONSIBILITIES
0  Normal. No decline in ability to do things around the house.
1  Some problems with home activities. May have more trouble with money management (paying bills) and fixing things. Can still go to a store, cook or clean. Still watches TV or reads a newspaper with interest and understanding.
2  Makes mistakes with easy tasks like going to a store, cooking or cleaning. Losing interest in the newspaper, TV or radio. Often can't follow a long conversation on a single topic.
3  Not able to shop, cook or clean without a lot of help. Does not understand the newspaper or the TV. Cannot follow a conversation.
4  No longer does any home-based activities.

PERSONAL CARE - CLEANLINESS
0  Normal. Takes care of self as well as they used to.
1  Sometimes forgets to wash, shave, comb hair, or may dress in wrong type of clothes. Not as neat as they used to be.
2  Requires help with dressing, washing and personal grooming.
3  Totally dependent on help for personal care.
DEMENTIA SEVERITY RATING SCALE (DSRS)

EATING
0  Normal, does not need help in eating food that is served to them.
1  May need help cutting food or have trouble with some foods, but basically able to eat by themselves.
2  Generally able to feed themselves but may require some help. May lose interest during the meal.
3  Needs to be fed. May have trouble swallowing.

CONTROL OF URINATION AND BOWELS
0  Normal - does not have problems controlling urination or bowels except for physical problems.
1  Rarely fails to control urination (generally less than one accident per month).
2  Occasional failure to control urination (about once a week or less).
3  Frequently fails to control urination (more than once a week).
4  Generally fails to control urination and frequently can not control bowels.

ABILITY TO GET FROM PLACE TO PLACE
0  Normal, able to get around on their own. (May have physical problems that require a cane or walker).
1  Sometimes gets confused when driving or taking public transportation, especially in new places. Able to walk places alone.
2  Cannot drive or take public transportation alone, even in familiar places. Can walk alone outside for short distances. Might get lost if walking too far from home.
3  Cannot be left outside alone. Can get around the house without getting lost or confused.
4  Gets confused and needs help finding their way around the house.
5  Almost always in a bed or chair. May be able to walk a few steps with help, but lacks sense of direction.
6  Always in bed. Unable to sit or stand.

INTERPRETATION
Add up the points for all sections.

Score
0-18 - Mild
19-36 - Moderate
37-54 - Severe

Author: Dr. Christopher M Clark, Alzheimer’s Disease Core Center
Department of Neurology, University of Pennsylvania, Philadelphia, Pennsylvania, USA
Please answer the following questions based on changes that have occurred since the patient first began to experience memory problems.

Circle "Yes" only if the symptom(s) has been present in the last month. Otherwise, circle "No". For each item marked "Yes":

a) Rate the SEVERITY of the symptom (how it affects the patient):

1 = Mild (noticeable, but not a significant change)
2 = Moderate (significant, but not a dramatic change)
3 = Severe (very marked or prominent, a dramatic change)

b) Rate the DISTRESS you experience due to that symptom (how it affects you):

0 = Not distressing at all
1 = Minimal (slightly distressing, not a problem to cope with)
2 = Mild (not very distressing, generally easy to cope with)
3 = Moderate (fairly distressing, not always easy to cope with)
4 = Severe (very distressing, difficult to cope with)
5 = Extreme or Very Severe (extremely distressing, unable to cope with)

Please answer each question carefully. Ask for assistance if you have any questions.

- **Delusions**
  - Does the patient have false beliefs, such as thinking that others are stealing from him/her or planning to harm him/her in some way?
  - Yes  No
  - SEVERITY: 1 2 3
  - DISTRESS: 0 1 2 3 4 5

- **Hallucinations**
  - Does the patient have hallucinations such as false visions or voices? Does he or she seem to hear or see things that are not present?
  - Yes  No
  - SEVERITY: 1 2 3
  - DISTRESS: 0 1 2 3 4 5

- **Agitation/Aggression**
  - Is the patient resistive to help from others at times, or hard to handle?
  - Yes  No
  - SEVERITY: 1 2 3
  - DISTRESS: 0 1 2 3 4 5

- **Depression/Dysphoria**
  - Does the patient seem sad or say that he/she is depressed?
  - Yes  No
  - SEVERITY: 1 2 3
  - DISTRESS: 0 1 2 3 4 5

- **Anxiety**
  - Does the patient become upset when separated from you? Does he/she have any other signs of nervousness such as shortness of breath, sighing, being unable to relax, or feeling excessively tense?
  - Yes  No
  - SEVERITY: 1 2 3
  - DISTRESS: 0 1 2 3 4 5
Elation/Euphoria  Does the patient appear to feel too good or act excessively happy?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5

Apathy/Indifference  Does the patient seem less interested in his/her usual activities or in the activities and plans of others?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5

Disinhibition  Does the patient seem to act impulsively, for example, talking to strangers as if he/she knows them, or saying things that may hurt people's feelings?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5

Irritability/Lability  Is the patient impatient and cranky? Does he/she have difficulty coping with delays or waiting for planned activities?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5

Motor Disturbance  Does the patient engage in repetitive activities such as pacing around the house, handling buttons, wrapping string, or doing other things repeatedly?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5

Nighttime Behaviors  Does the patient awaken you during the night, rise too early in the morning, or take excessive naps during the day?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5

Appetite/Eating  Has the patient lost or gained weight, or had a change in the type of food he/she likes?
Yes  No

SEVERITY:  1  2  3  
DISTRESS:  0  1  2  3  4  5
Safety Assessment Checklist

If the patient or caregiver answers yes to questions 1 and 3-7 or no to question 2, refer to the Safety Assessment Guide for further evaluation. When working with patients living with dementia, it is recommended that you also consult with a family member, friend or caregiver, as the patient’s judgment, memory and decreased cognitive skills may impact insight into the illness and the ability to provide accurate reporting.
