Interval Defer Until Duration ☐ diphenhydrAMINE (BENADRYL) injection 25 mg PRN Until discont'd 25 mg, Intravenous, As needed, itching, hives or adjunct treatment for mild-moderate, or SEVERE reaction, Starting when released, For 2 doses. Begin with 25 mg. If patient has continued reaction, administer additional 25 mg Until discont'd □ methylprednisolone sodium succinate (PF) (SOLU-Medrol) PRN injection 40 mg 40 mg, Intravenous, Once as needed, Adjunct treatment for mild-moderate, or SEVERE reaction, Starting when released, For 1 dose To be administered along with H1 antihistamine and methylprednisolone. HOLD IF: given as a premed. famotidine (PEPCID) 20 mg in sodium chloride 0.9% 100 mL Until discont'd 20 mg, Intravenous, Administer over 15 Minutes, at 400 mL/hr, Once as needed, Adjunct treatment for mild-moderate, or SEVERE reaction, Starting when released, For 1 dose To be administered along with H1 antihistamine and methylprednisolone. HOLD IF: given as premed. Until discont'd ☐ ondansetron (ZOFRAN) injection 4 mg 4 mg, Intravenous, As needed, nausea, vomiting, may repeat x 1 dose, Starting S, For 2 Doses ☐ cetirizine (ZyrTEC) tablet 10 mg **PRN** Until discont'd 10 mg Oral, Once as needed, Adjunct treatment for mild-moderate or SEVERE reaction, Starting at treatment start time, For 1 dose If patient unable to tolerate cetirizine, administer fexofenadine if available. HOLD IF; given fexofenadine. fexofenadine (ALLEGRA) tablet 180 mg Until discont'd

180 mg, Oral, Once as needed, Adjunct treatment for mild-moderate, or SEVERE reaction, Starting at treatment start time, For 1 dose

Administer only if unable to tolerate cetirizine. HOLD IF: given cetirizine.
